

GAME CHANGERS MIDDLE & EMERGING LEADERSHIP DEVELOPMENT PROGRAM

Your school's next game changers are already in your staffroom.

This isn't just four workshop days. It's a 365-day leadership journey for the people who are impacting your school's culture and growth.

LEARN TOGETHER · LEAD TOGETHER · GROW TOGETHER

The most important leadership role in a school often receives the least support.

Middle leaders are the bridge between vision and action. They lead peers without positional authority, hold the difficult conversations, and shape culture every single day. Yet **most step into leadership with no formal development at all.**

01 / THE YEAR The Year at a Glance Four full-day summits. One per term.

TERM 1	TERM 2	TERM 3	TERM 4
Lead Yourself <i>"Who am I?"</i> KNOW YOURSELF	Lead Relationships <i>"How do I lead people?"</i> KNOW OTHERS	Lead Teams <i>"How do I build great teams?"</i> KNOW TEAMS	Lead Change <i>"How do I change my organisation?"</i> CREATE CHANGE

Every concept is **experienced before it's explained.** Zero death-by-PowerPoint.

"We're the only provider whose student leaders and adult leaders speak the **same framework** — from Prep to the staffroom."

TURN OVER · WHAT HAPPENS BETWEEN THE SUMMITS

There are plenty of leadership programs. There are very few leadership *communities*.

What happens *between* the summits is where leaders actually change.

Your Leadership Pack

Your leaders will be connected to four to five trusted leaders from other schools. Their pack, shared commitments, quarterly meetings, a private channel. **Leadership doesn't have to be lonely in the middle.**

Four Implementation Challenges

The Noticing Challenge. Trust Builders. The Meeting Redesign. The Game Changer Project. **Real change, run in your school**, between every summit.

The End-of-Year Showcase

Every leader shares their story of change, growth and impact. **Less of a graduation, more of a celebration of action.**

*Growing leaders who leave *every person, team and school better than they found them.**
