

THE SUPERPOWERS OF PLAY & CONNECTION

How can we use play to transform the way people connect, engage and learn?

Play is not a break from learning. It's one of the **most powerful ways** we learn, connect and grow.

This is what staff PD looks like when everyone's in the game.

This high-energy, highly practical professional learning experience gives educators the **tools, confidence and inspiration** to bring more play, connection and joy into their classrooms and school communities.

This isn't a workshop where staff sit and listen. They **experience it** through laughter, movement, collaboration and shared challenges, and leave with a toolkit they can use with students **the very next day.**

Part professional learning. Part team building. A whole lot of connection.

01 / THE WORKSHOP What the workshop covers

1 The Science & Superpowers of Play

2 Connection Before Content

3 Engagement Changes Everything

4 Creating Positive Behaviour Momentum

5 Play With Purpose

6 Building Your Play Toolkit
