

THE TRUST LAB

CULTURE & TEAM-BUILDING PD

What kind of culture do we want to be part of, and what will we each contribute to create it?

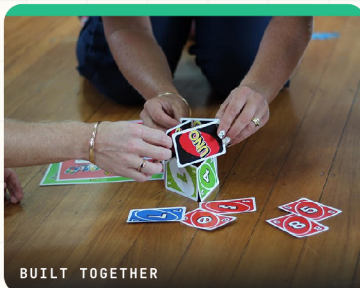

Great school cultures don't happen by accident. They're built in the small moments.

How people show up. How they communicate. How they support one another, and whether the values on the wall can actually be **felt in the hallways, classrooms and staffroom.**

The Trust Lab is an interactive professional learning and team-building experience exploring **professional trust, psychological safety, connection and collective responsibility** in the staffroom and the classroom.

This isn't a session about telling staff what their culture should be. It's about bringing people together to create it.
